

Statement of Purpose,

Yash Mange

For Vice-Presidency of NMIMS Navi Mumbai

Music Committee, Nmims Navi mumbai has been one of the important committees since I've joined the college and it'll always continue to be. One thing this committee has shown is that you can be the best at what you do if you believe in yourself. The committee is not just about people playing instruments and jamming with each other, but it includes a lot more than what is seen on the frontend. Meetings, practice scheduling, how you manage the hardware, the communication, the management of verticals, the audience pleasantries, the sub-committees, the core, all working with a sync and harmony and much more, when comes together, creates The Music Committee.

Coming to Myself, I'm Yash Mange, a student of STME pursuing B.tech CS (batch 19-23), applying for the post of Vice-President for the Music Committee, NMIMS Navi Mumbai. I'm a Professional Musician with Piano (Digital Keyboard) being my Instrument of Choice. I have certifications in the respective field and have also performed on various occasions for and in the college. I have been in the college since the committee was in its initial stages and have learnt a lot about how the backend here works. I have been on various important roles for many of the events held offline and have been an important part of them in planning, scheduling, organizing, performing, and finally executing. Operating as a performer and an organizer for the committee I have gained a lot of experience on how things work, how you must work, when to improvise, how to handle many situations and most importantly, where, and when to take charge.

Answering the question as to how I can contribute to the committee is that I've been a part of the committee since a while now and seen every aspect on what happens in a committee, I can provide the necessary guidance, the workforce, a performer's views and opinions and more of all I can provide my time and skills because I know I have in the past and I surely will in the future for the committee. And the connections I have established in the college since the first year can help with loads of work and not just with the students but the professors too. So in every aspect let it be skills, knowledge, experience, connections, guidance, instruments, I think I can give my best in every field possible for the committee.

Rest assured, I know I'll give my best for the committee like I always have regardless of the position I hold. We're all one committee and that's all what matters. Thank you!
